Margaret Bradshaw, Warden, : Death Penalty Case

RESPONDENT.

AFFIDAVIT OF GARY A. RINI, M.F.S., D.A.B.F.E.

IN THE STATE OF OHIO)	
)	SS
COUNTY OF CUYAHOGA)	

- I, Gary A. Rini, being first duly sworn according to law, state the following:
- 1. I am a Forensic Science Educator, Trainer and Consultant. A copy of my curriculum vitae is attached to this affidavit as Exhibit A.
- 2. I was contacted by counsel from the Office of the Ohio Public Defender to review materials obtained by the Cleveland Plain Dealer related to the above-captioned case. Mr. Noling's attorneys have provided me with the following materials to review: A crime scene report written by Chief Detective Duane Kaley of the Portage County Sheriff's Department; a handwritten report of an interview with Jim Geib dated April 10, 1990; and a report of an interview with Jill Hall dated August 10, 1990.
- 3. The crime scene report written by Portage County Sheriff's Department Chief Detective Duane Kaley is a supplemental report. Every officer at the scene should have filed such a report.
- 4. Kaley's crime scene report contains strong indications that the perpetrator of the murders was an individual known to the Hartigs. The following facts contained in the report lead me to this conclusion:
 - The garage door was open, the lawn mower was out, and Bearnhardt Hartig's gloves and coat were on a box in the garage near the door leading into the kitchen.
 - There were no signs of forced entry.

- It appeared to Kaley that Bearnhardt Hartig was sitting in the kitchen when he was shot.
- There was a hole in the wall behind Cora Hartig leading Kaley to believe that she had been sitting in a kitchen chair when she was shot.
- Kaley noted that it appeared that at least one other individual had been seated at the kitchen table.
- There were no signs of struggle from the victims.
- 5. Jim Geib told investigators that on April 5, 1990 at approximately 4:30 p.m., he saw a dark blue vehicle traveling at a high rate of speed in the general area of the Hartig residence. Mr. Geib said that he saw one subject, the driver, who appeared to be around 30 years old with black hair. This was an important piece of evidence. Competent investigators should have brought Mr. Geib in to give a formal statement. Failure to follow up on this was a serious error.
- 6. The report of Jill Hall's 1990 interview is in the form of a supplemental report. Routine investigative practice would have included taking a formal statement from her.
- 7. The 1990 report of Jill Hall's interview indicates that Butch Wolcott came to her apartment and talked about robberies in Alliance in which he, Noling, Joseph Dalesandro, and Gary St. Clair had been involved. If Jill Hall had told the police that Wolcott talked about a murder when he came to her apartment, normal investigative procedure would have been to include that fact in the report.

Further Affiant sayeth naught.
